

INTEGRATED SOLUTIONS

Cleaning

We provide a cleaning maintenance program tailored to suit the needs of our customers. From a foundation clean to a new facility to regular daily cleaning programs, we scale the services to suit the situation. We provide a single point of contact and service team, aligned to your culture and goals.

With the ability to service clients of all sizes in metropolitan, regional and remote areas, we are a trusted provider with a strong safety record.

Our customised service design is benchmarked to best practice across many industries, and we continuously monitor and improve our cleaning processes. We work seamlessly within your business across compliance, safety and reporting, to ensure your environment is reliably clean and safe.

Our highly skilled cleaning teams are experts in project management and logistics.

As your professional, experienced and reliable cleaning partner, we create value and generate efficiencies for you to ensure that you can focus on what you do best.

OUR COMPREHENSIVE RANGE OF SINGLE OR INTEGRATED SERVICES INCLUDE:

- Commercial and retail cleaning
- Event and precinct cleaning
- Ground and garden maintenance
- Heavy and light industrial environments
- Hygiene and washroom services
- Pest control
- Sterile and hygienic cleaning
- Waste management and recycling
- Window cleaning

Market leading practices

We are constantly introducing ways to innovate and value add.

BLUETRACK

Using the power of Bluetooth beacons, BlueTrack is transforming the way cleaning services are delivered. Our all-inclusive solution helps to reduce insurance costs, protect against litigation, know when KPIs are missed and improve workforce productivity.

SOLAR POWERED ON-SITE COMPOSTING APPARATUS

Spotless' cleaning team at Sunshine Coast Airport has adopted the use of a solar powered On-site Composting Apparatus (OSCA), to process organic waste into compost. The team ensures compostable waste is separated correctly for the OSCA, allowing for a third compostable waste stream alongside recyclables and waste.

I-MOP

Spotless utilises i-mops which feature a full size scrubber dryer deck with the flexibility of a flat mop. These technologically advanced mops clean underneath tables, serving areas, washroom sinks and can turn 180 degrees on the spot. Strong benefits have been achieved by saving time, ease of use and cleaner results.

INTELLIBOT

Intellibot offers floor-cleaning hands-free machines featuring G10 technology which incorporates fourteen sensors, giving the robot a 360-degree view of its surroundings, and allowing it to operate on its own. Additional benefits include eco-friendly water reclamation and superior surface cleaning. The units communicate with the operator and generate detailed reports including login time, end of shift and areas cleaned.

OUR CUSTOMERS:

With hundreds of clients across various sectors, we tailor our services to suit the needs of our clients, considering their schedules, site security, environmental factors, and budgets.

Our customers are from local, state and federal Government, as well as Australia and New Zealand's leading companies. Our team cleans across 3,700 commercial cleaning contracts at over 5,000 sites.

THE MANY AND VARIED SITES WE SERVICE INCLUDES:

- Airports
- City streets
- Education campuses
- Government buildings
- Hospitals
- Major sporting events
- Major stadiums and arenas
- Public buildings and spaces
- Remote mining townships
- Retail networks
- Shopping centres
