

SKILLTECH SMARTPIPE™

WHAT IS SKILLTECH SMARTPIPE™?

Skilltech SmartPipe™ is a fully managed hydrant access service with patented in-built technology.

The portable Skilltech SmartPipe™ now takes standpipe management to the next level.

You can now:

- Receive real-time data (time, locations, quantities) allows for immediate verification and queries from end users.
- Access statistics for data-driven improvement, such as historical access and GPS location.
- Limit water anomalies and regulate water extraction activities with geo-fencing technology.
- Update your field equipment at no additional cost. Field repairs, yearly maintenance and calibration checks are all included.
- Automate monthly billing (for approved users) improving cash flow.

COMMERCIAL BENEFITS

- Eliminating capital cost
- Reducing operational overheads
- Improving cash flow
- Increasing revenue by tracking unaccounted for water
- Reducing the total cost of standpipe delivery to the community

COMPARE TRADITIONAL STANDPIPE VS SKILLTECH SMARTPIPE™

DESCRIPTION	TRADITIONAL STANDPIPE	SKILLTECH SMARTPIPE™
Fully Managed Service	No	Yes
Weight	13 kg	10 kg
Maximum Flow	30,000 L per hour (8.3 L/s)	30,000 L per hour (8.3 L/s)
Low Flow	4,000 L per hour (1.1 L/s)	4,000 L per hour (1.1 L/s)
Meter Type	Mechanical—paddle with reed switch	Digital paddle with proximity sensor
Meter moving parts in water flow	5	1
Local meter display	Analogue	LCD display (configurable)
Security	Stainless wire tag	Security screws, DataDot + remote interference alarm
Pressure Tested	2,500 Kpa	2,500 Kpa
Paint finish	Powder coat	Powder coat
GPS water extraction location	No	Yes
Remote real time meter reading data	No	Yes
Find my hydrant location app.	No	Yes
Meter fault alarm	No	Yes
Flow rate display	No	Yes
Configurable geofencing capability	No	Yes
Statistical and historical trending capability	No	Yes

skilltech **SMARTPIPE™**

INNOVATIVE TRACKING, LOGGING AND REPORTING.

Tracking your water usage, logging and reporting data has never been easier.

Skilltech SmartPipe™ offers:

- Online reporting with a user-friendly reporting via a web-based monitoring system
- Advanced data-logging with two-year battery capacity
- Global Positioning System technology with patented antenna providing GPS location data each time it's operated.

ABOUT SKILLTECH

Skilltech is Australia's leading provider of metering performance solutions for water networks. With cost-effective technology, more than 24 years of metering experience, we offer safe, compliant and high quality services.
